PROVIDER INFORMATION / DATE – REQUIRED

Provider Signature (MD, DO, PA, CNM, NP): _____ Date: _____

Provider Printed Name: _____ Provider Stamp/Address: _____

Phone: _____ - _____ - _____ Fax: _____ - _____ - _____

- Massachusetts WIC strongly endorses breastfeeding as the optimal way to feed most infants. For infants that consume formula, MA WIC contract formulas available without the Request for Special Food and Formula are Similac Advance, Similac Soy Isomil, Similac Total Comfort, and Similac Sensitive. For Similac For Spit-Up to be issued, a Request for Special Formula and Food form that specifies an appropriate medical condition/ICD code must be submitted. Standard formulas from other manufacturers are not available.
- WIC policy limits the issuance of ready-to-use formula to the following four situations: inability to prepare formula correctly, concerns regarding water supply, homelessness or other inadequate living situation, and issues with known allergens present in powdered formulas. Personal preference is not an allowable condition for RTU formula issuance.
- **WIC participants who carry MassHealth insurance** will receive special formulas through MassHealth upon prior authorization. To obtain authorization, contact MassHealth or the member's Managed Care Organization. To assist families, WIC will provide **2 months** of benefits in order to allow for the MassHealth Prior Approval process and will act as a safety net for families should the process take longer. Similac For Spit-Up and Enfamil AR are not required to be provided through MassHealth; WIC will issue these formulas.
- WIC does not provide whole cow's milk for infants. **Whole milk is ONLY provided to women and children over the age of 2 who have a documented medical condition that warrants the use of a high-calorie special formula or supplement.**
- By signing this form, the provider authorizes the WIC nutritionist to make future decisions about any supplemental foods that are not checked as "not allowed" under the "WIC Food Restrictions" for this participant.
- **The request for special formula will require thorough documentation of a medical condition which warrants its issuance; documentation of symptoms may not be sufficient.** The request for a special formula is subject to WIC approval. A WIC Nutritionist will complete a thorough dietary assessment to verify the need for the requested formula. Significant findings will be communicated to you with the participant's permission. **It is WIC's policy to re-evaluate the participant's continued need for the formula on a periodic basis.**
