

Stars | Early Head Start

Early Head Start provides family-centered services for infants and toddlers under the age of 3, and pregnant women. Our programs are designed to promote the physical, cognitive, social, and emotional development of the children, and to enable their caregivers to fulfill their roles as parents and to move toward self-sufficiency.

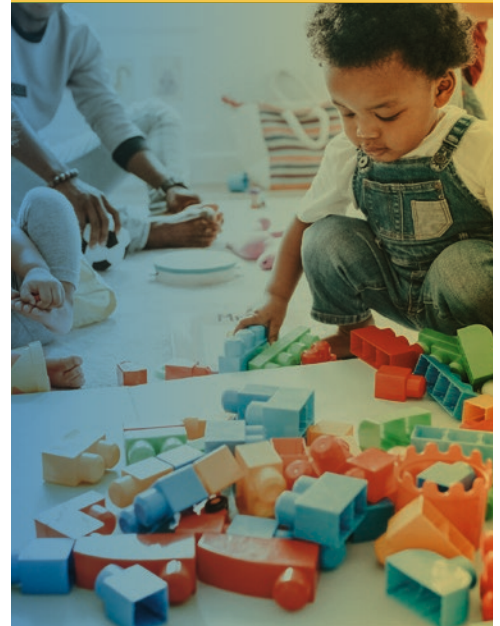

As infants and toddlers grow and change, and as family needs evolve, diverse program options can support them over time.

Program options include:

- Parenting Support Workshops
- Play Groups for Caregivers and Children
- Weekly Home/Virtual Visits
- Weekly English as a Second Language Classes
- Dental Clinics
- Support for finding and applying for Services
- Health, Safety and Nutrition Guidance
- Literacy Workshops
- Special Events throughout the year

open to residents of:

**Avon
Brockton
Holbrook
Randolph
Stoughton**

ALL PROGRAMS ARE 100% FREE to Eligible Families

We are here to help.
