

BAMSI COORDINATED SPECIALTY CARE

Do you have a 13-19 year old student who seems to be struggling with their mental health?

Have you noticed?

- Drop in grades/performance
- Trouble thinking clearly or concentrating
- Suspiciousness, paranoid ideas
- Social withdrawal/isolation
- Unusual, overly intense new ideas, strange feelings, or no feelings at all
- Decline in personal hygiene
- Difficulty telling reality from fantasy
- Trouble communicating thoughts

FREE SERVICES
provided *onsite* at
your **Brockton Public
School**, the family's
home, and/or
community.
